

Jeffrey C. Kotz, D.M.D., P.A.
Practice Limited to Endodontics

742 Saint Andrews Boulevard
Charleston, SC 29407

Telephone (843) 225-9002

PRE-SURGICAL INFORMATION

1. Eat a regular meal before procedure.
2. Provide us with a release form from your doctor for all prescription blood thinners. This document will give permission to stop all blood thinners approximately 5 days prior to our procedure and not resume until 24 hours after surgery.
3. Arrange for a friend or family member to drive the day of surgery. You will have an ice pack after surgery and a driver will allow for proper application.
4. Make a soft foods shopping list. (mashed potatoes, yogurt, milk shakes, smoothies, etc.)
5. Stitches will be placed on the day of surgery. You will be given instructions for proper care of the stitches.
6. Most patients can resume normal activities the day following surgery.
7. Swelling and/or bruising may occur following surgery.
8. You may develop oral and/or facial paresthesia (numbness) following surgery. This numbness may be temporary, or may be permanent.

INFORMED CONSENT

I have read and understand the above information and hereby give consent to surgical treatment:
